

## Director's Message

On behalf of Infraspection Institute, I want to thank everyone for their thoughts and well wishes following Hurricane Sandy. All of our staff made it through the storm with varying degrees of difficulty, the most common of which was a lack of electrical and

communications utilities. Some of our staff were without electricity for nearly a week.

## Upcoming Courses

### [Level I Certified Infrared](#)

#### [Thermographer®](#)

- Dec 3 – 7 Philadelphia
- Jan 7 – 11 Allentown
- Feb 4 – 8 Philadelphia

### [Level II Certified Infrared](#)

#### [Thermographer®](#)

- Nov 26 – 30 Melbourne
- Mar 4 – 8 Philadelphia

### [Level III Certified Infrared](#)

#### [Thermographer®](#)

- Dec 10 – 12 Melbourne
- Jun 17 – 19 Philadelphia

I also wish to thank fire, rescue, police, and military personnel who helped others before and after the storm for all that you have done and will continue to do in the future. To those who are still struggling, you are in our thoughts and prayers.

Twice last week, I visited one of the hardest hit areas near Atlantic City to help in the cleanup effort. It is hard to describe the amount of devastation and misery left in the wake of this historic storm. As of this writing, many people are still without power while others have lost their homes entirely.

With any natural disaster recovery takes time, dedication, and resources. Recovery does not come quickly and will continue long after media personnel have moved on to other stories. If you cannot personally volunteer and would like to help those affected by this or other natural disasters, I would invite you to join Infraspection Institute in making a donation to the American Red Cross.

## Refresher Courses

Infrared thermography is a dynamic technology that is constantly evolving. Because of this, Infraspection Institute's course content is constantly being updated as technological and industry advances dictate.

If it has been several years since you attended an Infraspection Institute course, there have been BIG changes in the course material and content. Joining us for a current course can provide you with up-to-date information that will help to keep your training fresh.

## Upcoming Conferences

Infraspection Institute invites you to see us at the following upcoming conferences. Be sure to stop by and say Hello!

### [IR/INFO Conference](#)

Jan 13 – 16, 2013

Orlando, FL

## Become an Infraspection Course Reseller

Proper training is essential to the success and longevity of any infrared inspection program. If you are a professional thermographer, distribute infrared or related test equipment, or are involved in

professional training, we can help you to increase both sales and profits. An affiliation with Infraspection Institute can also help to increase your company's visibility without compromising your credibility.

With the proliferation of cheaper infrared cameras, competition has become more fierce and profits more scarce. Offering training can not only expand your services and increase profits, it can help provide a long-term relationship that keeps your clients 'on the farm' and close to you.

Because Infraspection Institute does not sell infrared equipment, our courses are presented without marketing hype. Since we are not affiliated with infrared equipment manufacturers, you can rest assured that your clients are not being hijacked by a competitor. Best of all, you have several options to choose from including open enrollment classes, on-site courses, and our convenient web-based Distance

Learning courses.

## Attend IR/INFO 2013 & Earn InterNACHI CEUs

Infraspection Institute is pleased to announce that InterNACHI members who attend our IR/INFO 2013 Conference will qualify for 24 Continuing Education Units (CEUs). InterNACHI members who attend the entire conference will be able to satisfy their continuing education requirements for all of 2013

with this one event!

In addition to CEU's, InterNACHI members who register and pay for the full conference before December 31, 2012 will receive a tuition voucher for up to 100% discount on a 2013 Infraspection Institute Certified Infrared Thermographer® training course!

IR/INFO is a unique gathering created by thermographers for thermographers. Whether you are a beginner or a seasoned professional, IR/INFO has something for you. At IR/INFO you can hear success stories, proven techniques, and interesting case histories. Learn about business opportunities and see the latest in equipment and software.

While at IR/INFO you can network, share ideas, and find answers to your thermographic questions. Expect to return home with information and ideas that can help to expand your business and increase your profits in the new year.

IR/INFO is being held January 13-16, 2013 in Orlando, Florida at Wyndham Lake Buena Vista Resort. Discounted room rates are

available from \$105 per night. With several world-class attractions located nearby, this is a great opportunity to bring the family and let them share in the fun!
